

Job Title: Software Engineer (Python, AI/ML, NestJS & Next.js) (1+ Year Experience)

Location: Onsite

Employment Type: Full-Time

Experience Required: 1+ Year

Job Overview

We are looking for a motivated and skilled Software Engineer with at least 1 year of professional experience in software development. The ideal candidate should have hands-on experience in **Python development, Artificial Intelligence (AI), Machine Learning (ML), NestJS, and Next.js**, along with knowledge of cloud technologies and modern development tools. You will work closely with cross-functional teams to design, develop, and deploy scalable web applications and AI-driven solutions.

Key Responsibilities

- Design, develop, test, and maintain scalable web applications and backend services.
- Build and integrate AI/ML models into production applications.
- Develop backend applications and RESTful APIs using **NestJS**.
- Develop modern, responsive frontend applications using **Next.js** and **React.js**.
- Write clean, efficient, and maintainable Python code.
- Integrate AI-powered features such as LLMs, chatbots, recommendation systems, or automation workflows into applications.
- Deploy and manage applications using Docker containers.
- Work with AWS Cloud Services for application deployment and infrastructure management.
- Collaborate with cross-functional teams using Jira for sprint planning, task tracking, and agile development.
- Participate in code reviews and ensure adherence to coding standards and best practices.
- Troubleshoot, debug, and optimize application performance.
- Stay updated with emerging technologies and recommend improvements to existing systems.

Required Skills & Qualifications

- Bachelor's degree in Computer Science, Software Engineering, or a related field.
- 1+ year of professional experience in software development.
- Strong proficiency in **Python**.
- Hands-on experience with **Artificial Intelligence (AI)** and **Machine Learning (ML)** concepts and frameworks.
- Experience in developing backend applications using **NestJS**.
- Experience in developing frontend applications using **Next.js** and **React.js**.
- Experience with **Docker** and containerization.
- Familiarity with **AWS Cloud Computing** services (EC2, S3, Lambda, RDS, ECS, etc.).
- Experience using **Jira** for project management and Agile workflows.
- Knowledge of **RESTful APIs** and **microservices architecture**.
- Familiarity with **Git** and version control systems.
- Experience with relational or NoSQL databases such as **PostgreSQL** or **MongoDB**.
- Understanding of AI frameworks such as **PyTorch**, **TensorFlow**, **Scikit-learn**, or **Hugging Face Transformers** is a plus.
- Familiarity with **LLMs**, **RAG**, **LangChain**, or AI APIs (OpenAI, Gemini, Claude, etc.) is a plus.
- Strong problem-solving, analytical, and debugging skills.
- Excellent communication and teamwork abilities.
